

# Master Your Fears, Kickstart Your Future

Allen Snook - Speaker, Business Coach, Motorcyclist

Is your business not where you want it to be? Having trouble making important decisions? Feeling completely on your own?

Running a small business is no simple task! Entrepreneurs are faced with a continual river of decisions to be made. Businesses must grapple with changes in the marketplace and in the communities they serve. Fear of making the wrong decision can lead you to delay or make NO decision.

**And avoiding change, avoiding difficult decisions is a recipe for disaster, whether you're running a for-profit or not-for-profit.**

**Creator of  
The Basic  
Courage  
Course™**

My mission is to inspire entrepreneurs to **Lean Into Their Courage, Master Their Fears, and Kickstart Their Future.** In seminars, keynotes and one-on-one coaching, I'll engage you with personal stories, insights from the business world and parables from the world of motorcycling... to kickstart your business, to get you rolling with the curves, to lose what's slowing you down, and to get your speeds - your profits and strength - up!

## About Allen Snook

I began my professional career as an engineer, travelling across Europe and the U.S. designing and installing satellite ground stations, before my family and I ultimately settled in the Pacific Northwest.

I've worked and led in many organizations, for-profit and non-profit, and have witnessed first-hand both the debilitating effects of fear of failure, and the incredible results delivered when people are courageous in the face of change. I've seen where my own fears held back my family, my work, and life in general -- and how it is possible to lean into courage, master fears and renew a **SPIRIT OF ADVENTURE**.

*"I enjoyed the examples given by Allen, his delivery is engaging and genuine."*

*"Helpful concepts for entrepreneurs."*

*"The tools are a great way to look at and manage fear."*

*"Very inspiring. I needed to hear it."*

- Inspiring, engaging speaker
- Engineer-Inventor: Holder of several patents
- Expert on fear, change and innovation
- Dot-com and Fortune 100 experience
- Non-profit officer and for-profit management
